

Peak Time Kids Club

Road Safety Procedure

If a child/children has been brought to the club by car they should wait until the courier tells them that it is safe to take off their seatbelt before doing so. The courier should then let the child/children know that it is safe to open the door of the car before they get out. The child/children should wait at the back of the parked car, next to the wall for the courier to escort him/her to the building.

Child/children who are collected from the vehicle must stay and cross any road with the member of staff who meets them.

If children will be crossing roads they will be provided with a high vis jacket.

Road Safety discussions with the children will take place regularly.
